Surgical Power Tool Repairer

PRICE SAVINGS 35 - 75% when compared to the Manufacturers

OBSOLETE We also repair all instruments considered obsolete by the Original Equipment Manufacturer using all new High Quality Stainless Steel bearings and parts

LOANERS We hold a range of loan instruments, call us for availability

WARRANTY We have a 6 month guarantee on parts and labour and a money back guarantee on quality of repair and service

Around the world, the name Fibertech has become synonymous with quality repairs of endoscopes. In Australia & New Zealand, we continue this vision by now also specialising in Surgical Power Tools offering an exclusive repair service for these instruments. Our unique organisation combines the experience of our international operations with the insight of our Australian market specialists and support personnel.

Our workshop located in Melbourne allows for our extensively trained technicians to complete a full diagnosis and repair of Surgical Power Tools and Endoscopes. All services are carried out using the latest testing and calibration equipment and are backed by our 6 month warranty on parts and labour.

Fibertech has become a solution to the ever increasing demand of cost reduction by supplying a dependable, cost-effective repair and maintenance service.

FREE QUOTATIONS - QUICK TURNAROUND

All it takes is a simple phone call and we arrange for the instrument to be picked up from your unit. You will receive a quote for your approval within 1-2 days and repairs are generally completed within 5 working days from your approval.
